

CLOSING AND CONCLUDING REMARKS - EURELECTRIC Point of View

Dr. Mihai PAUN

Networks Unit
EURELECTRIC

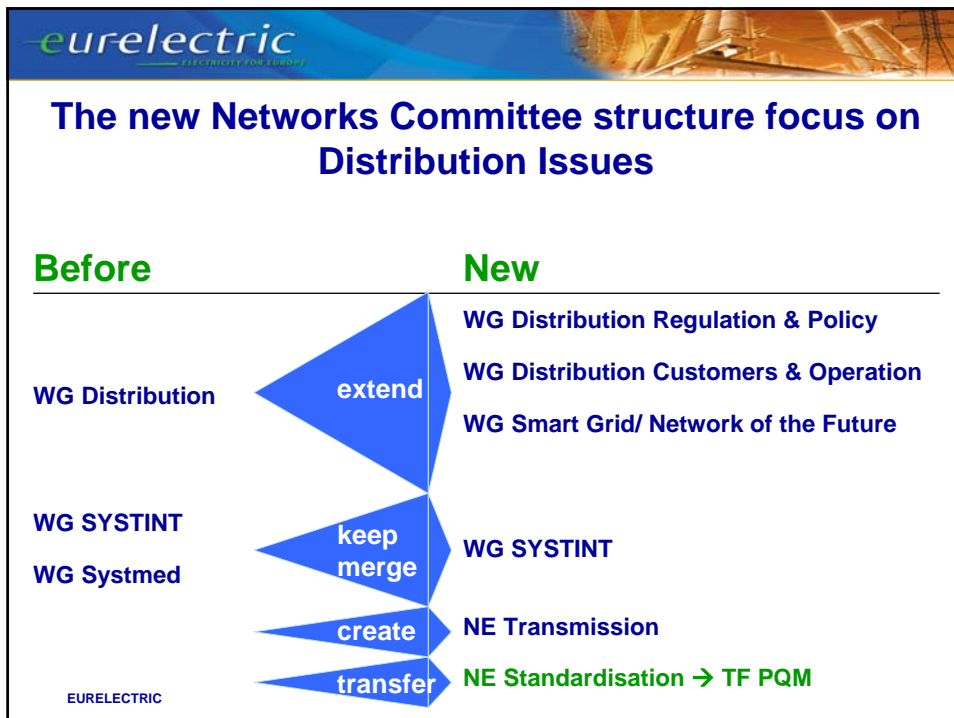

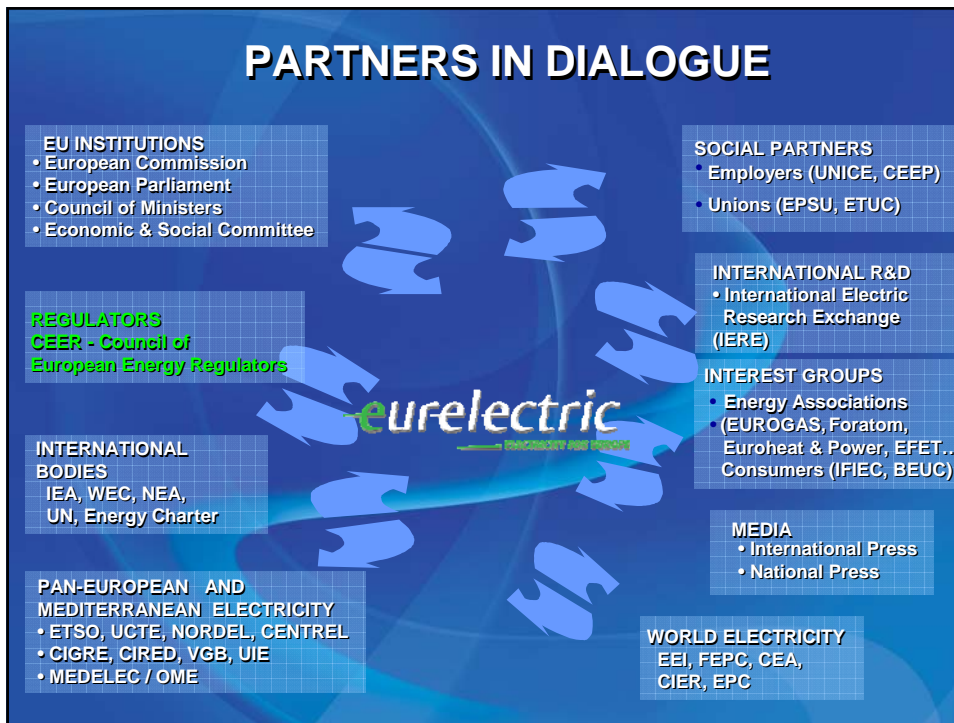

**EURELECTRIC – CEER Joint Workshop on
“Voltage Quality Monitoring”**

EURELECTRIC

18 November 2009, Brussels

CO-OPERATION EURELECTRIC-CEER

- ✓ Joint EURELECTRIC-CEER exchange of information and meetings
- ✓ Joint EURELECTRIC – CEER Round Table at CIRED 2009
- ✓ Joint EURELECTRIC – CEER Workshop today
- ✓ Participation of CEER delegates in EURELECTRIC WG Meetings
- ✓ Participation of EURELECTRIC experts in CEER Conferences and Meetings
- ✓ Future information exchange and co-operation to be explored
- ✓ More topics of common interest to be defined

Final REMARKS

S-1.1

- ✓ Initiative on VQM is mainly taken by DSOs & TSOs - CEER
- ✓ Costs associated with any VQM programmes
- ✓ Justify moving portable equipments around – Electricity Industry
- ✓ Smart meters possibilities = YES / manufacturing industry to understand more the needs for VQM
- ✓ How to monitor all this data and store info into the meters?
- ✓ Smart meters will not replace PQM equipments

Final REMARKS

S-1.2

- ✓ UK - some info available on VQM – to be made available
- ✓ *Economic solutions* come from the customer, but...
- ✓ How to define the framework for sharing responsibilities?
- ✓ Guide to customers? – may be, however...
- ✓ *The Guide Economic Framework for PQ* is expected in 2010 from JWG CIGRE-CIRED C4.104

Final REMARKS

S-2.1

- ✓ Customers related issues including awareness – important
- ✓ Automatic payment for the consumer
- ✓ Compensations without any notice to the consumer
- ✓ Measure and record the fulfilment – 2-3 years time in HU
- ✓ Customers receive the list of all interruptions in the previous year = customer awareness - in IT
- ✓ Workshops involving customers and technical support in PT especially on voltage dips – help the customer finding the solution

Final REMARKS

- ✓ DSOs consider PQ as important
 - ✓ Many DSOs have some monitoring already
- ✓ Costs can be significant
 - ✓ Important to carefully define objectives
 - ✓ Important to allow for costs in revenue/price controls

EXPECTATIONS AND NEXT STEPS

- ✓ **Reference point** in carrying out comparisons between DSOs.
- ✓ **Beneficial** in discussions between industry & regulators
- ✓ **Sharing of best practice and improving efficiency**
 - ✓ **Framework for responsibility-sharing** between customers and network

EURELECTRIC

EXPECTATIONS AND NEXT STEPS

- ✓ **Lead to further collaborative work** to promote better understanding
- ✓ **Joint CEER – EURELECTRIC Event 2010**

EURELECTRIC
